

DSAT Primary Maths Conference
Saturday 25th April 2020

5th March 2020

Dear Parent/Carer,

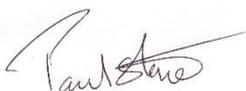

We are pleased to announce that we are holding an exciting and innovative maths conference at **Parkland Primary School** on **Saturday 25th April from 10am to 2 pm**. We are really pleased to offer a selection of fabulous maths workshops to inspire children in mathematics. Children will attend three workshops during the day. This year to make the event even more enjoyable, children will have some choice in which workshops that they would like to attend. Please read through the workshops descriptions below and select *four* workshop choices. Please note that your child won't attend all four workshops but will at least attend one of these throughout the day.

There is a small cost of £3 per child for attending the conference, to cover the cost of running the conference. **Your child will need to bring a packed lunch with them and a bottle of water**. We will provide another snack during the day. We are sure you will all agree that this is great value for such a fabulous day!

Workshop Title	Description	Tick	Workshop Title	Description	Tick
1. Tessellation	Learn how to look at patterns within patterns, combine art and maths skills and create wonderful works of art. Prepare to be dazzled and amazed!		5. Murder Mystery	Use a wide variety of maths skills to solve the mystery of the missing maths books. Who took the books and what did they want with them? Will you be the person to find out?	
2. 3D Shapes Spaghetti Challenge	Can you work in a team to complete challenges to build 3D shapes... out of spaghetti and marshmallows?! Get your teamwork and building skills ready for the super building challenge!		6. Hindu Jewellery	Have you ever wondered what your magic number is? Have you ever considered the number patterns hidden behind multiples? If you enjoy exploring mystery's then this is the workshop for you!	
3. Board games and dominoes	Do you enjoy using logic and tactics to win games such as dominoes, ludo, draughts and snakes and ladders? If so, come along to this workshop to play some of your favourite games and perhaps learn a new one.		7. Build a bridge	What makes a bridge strong? Can you use a range of materials and join them in a way to make a sturdy bridge? Get your teamworking, problem solving and creative skills up to scratch with this exciting workshop.	
4. Pentominoes	Puzzling with pentominoes: put your logical-thinking skills to good use to find all the different pentominoes & then use them to solve puzzles and challenges. Think Tetris but with shapes made of 5 squares!		8. Perfect 2D shapes and patterns	Learn how to draw and construct perfect 2D shapes and repeating patterns using a compass and protractor! 	

Please return the parental consent slip including your money to your **own school office** as quickly as possible, so that they can confirm if your child has been allocated one of the places that your school has been given. Unfortunately, any forms returned to your school after **Friday 20th March 2020** may not be considered.

Yours sincerely,

Paul Stone, CEO
