

6 July 2020

Dear Parents/Carers,

Whole School Transition Updates

Please find below information updates around transition to help support your child moving to the next stage of their education.

New Classes

Classes will be remaining the same next year and children will be moving up as a whole class. You should now be aware of your child's class teacher for next year after receiving your child's report.

Transition Videos

Unfortunately, due to the lockdown guidance over the last few months, transition activities have been limited. However, all teachers for next year and year groups have made videos saved [here](#) on the school website. These videos will allow children to see the classrooms for next year and their teachers introducing themselves.

Additional Support

Teachers of classes next year will be added to current TEAMS this week and will be able to communicate with children and share transition video links through a channel titled 'Transition'. Please encourage your child to engage with this channel and ask any questions they have about the next year.

Plans for the New Academic Year

We are working hard to prepare for the return of children in the new academic year; we are regularly receiving further guidance and updating plans. Please allow us the time to fully prepare and make these plans for return and we will keep you informed over the summer.

TEAMs platforms and online learning over the summer

Teachers will be posting on-line a set of summer activities which children can engage with over the summer if they wish. Over the summer, teachers will not be posting work and TEAMs platforms will be muted so children will not be able to access the chat function but can still access files.

Thank you for all your support over the last few months and we look forward to welcoming you back for the start of the new academic year.

We wish you a safe, restful and relaxing summer break.

Yours sincerely

Head Teacher
